Profile:

I have recently finished my degree at the University of Northampton with a first-class honours classification. My course included core modules for designing and creating games, both as an individual and in groups of programmers and artists. I also completed modules relating to graphics, mobile computing, web development, networking, databases and software engineering. Having achieved admirable grades in all of these modules, I consider myself to be a well-rounded and adaptable programmer who will work well and efficiently within a team.

Key Skills:

Technical Skills:

- Languages I use primarily: C++, C#
- Experienced with Unreal Engine 4 and Unity
- An understanding of languages/APIs: Java, Swift, ActionScript 3, HTML/CSS, PHP, OpenGL, SQL
- Other known software: Visual Studio, MonoDevelop, Android Studio, XCode, MySQL Workbench, FlashDevelop, Eclipse

Personal Skills:

- Experience working and communicating within teams of programmers and artists
- Experience undertaking major projects from conceptualization to completion
- Logical approach to problem solving
- Ability and Willingness to learn new concepts and technologies
- Patience and attention to detail
- Good communication skills

Education:

1st Class degree in BSc Computer Games Development from the University of Northampton (2017)

A-levels in Computing and Mathematics

BTEC Level 3 QCF in Applied Science

The Complete Unity Developer Course by Ben Tristem (Currently Undertaking)

The Unreal Engine Developer Course by Ben Tristem (Currently Undertaking)

Experience:

Work Experience: 2012 – 2014: Part-Time Cleaner at Abbey College Ramsey

Voluntary Experience: 2009 – 2013: Royal Air Force Air Cadets

Other Interests:

I have a passion for playing and competing in video games, particularly the action and strategy genres. I gain a lot of satisfaction from analysing games and programs to see if further developments and improvements can be made. Additionally, I like to keep fit and healthy by running and enjoy skiing when I get the opportunity. I also like to spend time with my friends doing fun activities such as escape rooms, airsoft, or just going to the cinema to see a film.
